The Bluecont and the Bike. I think the idea of having the police on wheeler is not the best in the world. For instance, if a horse were to run away, where would the wheel come in? Of course, it can go fast, but that is not the thing. It could not be stopped quick enough, for while the policeman would be put-

on the corner to ring up an ambulance, but the cierk said a policeman would have to ring it up. Had this poor man been more severely injured, he might have died by the time the policeman arrived, as it was nearly twenty minutes before he put in an appearance. I think it would be more of a credit to the drug clerk to have called up the ambulance, and not let the victim suffer so long. Also, if the policeman had been at hand souter, it would be still better. JOE A WITNESS, Brooklyn to live with closed eyes.
